Map by the People, for the People

This is a participatory project so new to the city of Amman and the transport network. We hope that everyone who visits this site can contribute to improving this map and we will be very grateful for any feedback you can provide.

We are currently working on a simple version of the map that will allow you to upload any new information and mark it on the map itself. But you can also get in touch with us directly and we will add your information to the map.

Enabling the availability options for brand new features:

Example: checking the availability options for brand new features:

Trail Building... Click on the map above to explore the latest developments in trail building.
